

Eastern Shore Chamber of Commerce Receives \$70,000 Grant from USDA Rural Development

Steve Pelham, USDA Rural Development State Director, presented a \$70,000 check to representatives of the Eastern Shore Chamber of Commerce recently. The presentation was made during the Chamber of Commerce Association of Alabama's summer conference in Gulf Shores. Accepting the check on behalf of the Eastern Shore Chamber were (from left) Greg Loughlin, director of business development, Scott Koser, chairman Technology/Research park task force, Darrelyn Bender, president/CEO, and Joe Bullock, incoming board chairman.

"USDA Rural Development is pleased to make these funds available to the Eastern Shore Chamber of Commerce to help create business opportunities in the Eastern Shore and Baldwin County," said Pelham. "These funds combined with the commitment by local leadership will help to ensure this area is prepared to meet the challenges of a changing economy in south Alabama. Today's investment by USDA Rural Development will have a positive impact on the future of this region."

The Eastern Shore Chamber of Commerce, as part of its Blueprint for Tomorrow strategic plan, is commencing a feasibility study concerning the establishment of a research and training center on the Eastern Shore. This key Blueprint for Tomorrow initiative will determine the support for, and the economic impact of establishing a campus like center for businesses working with cutting edge technologies as well as training workforce for these same technologies. Another integral part of this feasibility study will be identifying possible partners in this effort.

"The Eastern Shore Chamber of Commerce

is very pleased that USDA Rural Development has chosen to partner with our Chamber as we work to improve the economic vitality and stability of the Eastern Shore", said Bender. "We value their partnership and pledge to leverage their financial commitment with our own and continue to work to make the Eastern Shore and Baldwin County a great place to grow businesses."

The \$70,000 grant was provided through USDA Rural Development's Rural Business Enterprise Grant (RBEG) program. This program offers grants to public bodies and nonprofit organizations to finance and facilitate development of small and emerging businesses located in rural areas and towns with less than 50,000 population. To assist with business development, RBEGs may fund a broad array of activities, such as acquisition and development of land, construction of buildings, repairs and expansions, access streets and roads, parking areas, utility and service extensions, equipment, revolving loan funds, fees for professional

services, and technical assistance.

The Eastern Shore Chamber of Commerce serves the entire Eastern Shore of Mobile Bay, from historic Blakeley State Park, all the way to Weeks Bay. Municipalities include Spanish Fort, Daphne and Fairhope. Unincorporated areas served are Malbis, Montrose, Point Clear and Barnwell. Our mission is to support stability and growth for the business community by providing services that cultivate economic expansion and community development. During the

Bush Administration, USDA Rural Development has invested over \$76.8 billion to support homeownership, infrastructure, business and community development in rural America. As a result, over 1.5 million jobs have been created or saved through these investments. "Since 2001, USDA Rural Development has invested over \$2 billion in Alabama, helping to improve the quality of life in rural areas And towns through projects like we are recognizing today," said Pelham.

USDA Rural Development's mission is to deliver programs in a way that will support increasing economic opportunity and improve the quality of life of rural residents. As a venture capital entity, USDA Rural Development provides equity and technical assistance to finance and foster growth in homeownership, business development and critical community and technology infrastructure. Information on all programs available through USDA Rural Development may be obtained by calling the Bay Minette office at (251) 937-3297 ext 5, or by visiting the agency's website at <http://www.rurdev.usda.gov/al>.

Baldwin County Commission Receives Award for Excellence in County Government

The Baldwin County Commission was awarded the 16th Annual Award for Excellence in County Government-Urban Category, by the Association of County Commissions of Alabama (ACCA) for its "Coastal Wetland Revitalization Project: The Use of Recycled Christmas Trees and Hurricane Debris for Erosion Control."

The ACCA awards one county in Alabama the Excellence in County Government Award every year. This award recognizes and honors effective programs that have been implemented by the county commission to meet the needs of their communities in innovative ways.

The "Coastal Wetland Revitalization Project" used lumber that had been recovered by the Baldwin County Solid Waste Department from Hurricane Katrina storm debris and Christmas trees, donated by the Solid Waste Department's Annual Christmas Tree Recycling Program, to rebuild over 60-feet of brush fence that had been destroyed by storms along Weeks Bay at Camp Beckwith, in South Baldwin County.

This project not only helped in preserving the shoreline of Weeks Bay, but it has aided in allowing the Camp Beckwith Coastal Wonders Program to continue to bring local school children to the site to learn first-hand about their environment. This project was also financially beneficial to Baldwin County, by using recyclable materials in the community instead of disposing of them in the landfill. This preserved landfill space which can cost up to \$250,000 per acre to construct.
